Color, your way.

Pair Muro's streamlined accessories with endless special order color options—available for wall-mounted, floor-based, or floor-to-ceiling installations. It's a flexible framework built to suit your palette and your purpose.

Muro brings together B+N’s core design principles: modularity, user-friendly functionality, integrated lighting, and bold backlit graphics. Its sleek, minimal

Left: Floor Fixture Frame – Single Bay with flat metal shelves. Right: Columns are tension-mounted and anchored for a solid floor-to-ceiling setup—fully powered and built to scale endlessly.

Columns support interchangeable lit shelves, cabinets, hanging accessories, and oversized SEG graphics—power-ready wherever you need them.

Build repeatable wall layouts, dramatic floor-to-ceiling installations, or choose from three versatile freestanding fixtures to fit your space and purpose.

Wall Columns can be mounted 24" or 48" on center. All lit accessories are designed to accommodate both configurations.

Matte Black and Matte White are standard powder coat options, with endless color variations available for special order. Shown here: one of our favorite palettes for Muro.

Columns can be clad in the same wood-look finishes as our Fortina system—a film that brings the warmth, texture, and grain of real wood.

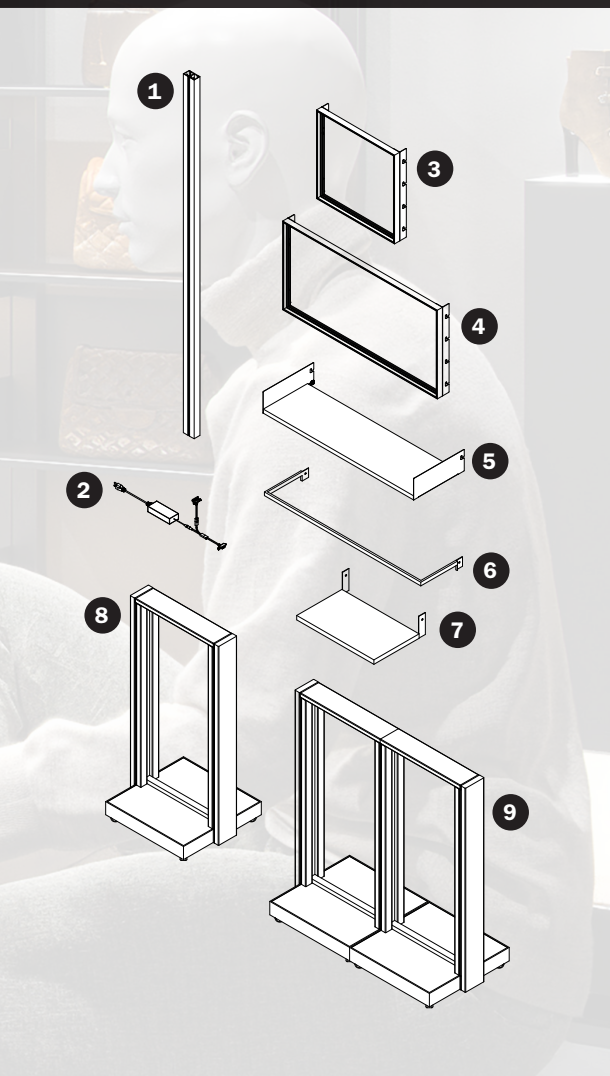

A refined, custom look is achieved through powder coat finishes—matte black and matte white are standard, with endless special order options available. Columns can also be clad in the same wood-look film used in our Fortina system: a durable, non-PVC finish that captures the warmth, grain, and texture of real wood.

Column clad in Fortina Finish TS-SN0235 Oak H, creating a relaxed aesthetic when paired with Matte White accessories.
